

TAVR PRE CONFERENCE WORKSHOP – 17th August 2017 – 2 - 8:00PM–HICC, HYDERABAD.

1.30pm-2.00pm - Registration & Welcome		
Session-I 2.00pm -3.30pm TAVR Heart Team Journey & Various Devices		
2.00-2.30pm		TAVR - Journey from niche procedure to routine part of treatment algorithm (Covers how to develop & nurture “Heart Team” for TAVR)
2.30-2.45pm		The Sapien 3 Valve - Device Characteristics and Procedural Tips
2.45-3.00pm		The Evolut R Valve - Device Characteristics and Procedural Tips
3.00-3.15pm		The Indigenous TAVR Systems - Where do they stand? .
3.15-3.30pm		Discussion
Session-II 3.30 5.30pm - Case Selection, Pre & Post Procedure Care & Complications		
3.30-3.50pm		Assessing the Aortic Stenosis, Annulus by Echo & CT
3.50-4.05pm		CAD and TAVR - Impact on outcomes and when to treat .
4.05-4.20pm		Percutaneous access and closure - tips and tricks .
4.20-4.30pm		Optimal post procedural care
4.30-4.50pm		Assessment and Impact of PVL after TAVR
4.50-5.00pm		Stroke after TAVR - Is it still a problem?
5.00-5.15pm		Embolic Protection - Is there a role?
5.15-5.30pm		Discussion. & Coffee Break
Session-III – 5.30pm-6.030pm :Preventing and Managing Complications with Case Examples		
5.30-5.45pm		Vascular Complications
5.45-6.00pm		Annular and/or Aortic Root Injury.
6.00pm-6.15pm		Conduction abnormalities.
6.15-6.30pm		PVL.
Session-IV – 6.30-8.00pm -Challenging anatomies (Case Examples and Tips and Tricks)		
6.30-6.45pm		Bicuspid Valves.
6.45-7.00pm		Horizontal Aorta.
7.00-7.15pm		Small annulus.
7.15-7.30pm		Poor vascular access.

Session-V – 8.00-Controversies

7.30-7.40pm		Conscious Sedation vs General Anaesthesia
7.40-7.50pm		Low flow, Low gradient AS - When to treat?
7.50-8.00pm		Concomitant Severe MR
8.00pm		Dinner
